

PRODUCTION  
SUPPORT

services by

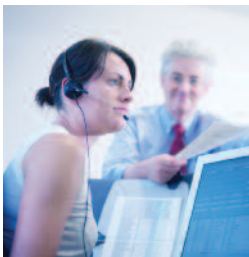

Production Support provides manufacturers with a cost effective logistics service for the factory feed of ambient raw materials and packaging. We work with our clients' suppliers to manage product stocks, consolidate orders and deliver a single consignment to the factory door using a dedicated shuttle service. Our services are designed to save administrative effort, free up factory storage space and allow manufacturers to focus on manufacturing.

## Why choose ACS&T?

Working with Production Support, your business could benefit in a number of significant ways, including:

- Simplifying administration by making suppliers responsible for the day-to-day management of stocks and providing you with real-time stock summaries through our web site
- Maximize factory feed efficiency by consolidating orders from a full range of raw materials and packaging onto a single delivery
- A dedicated shuttle service to ensure constant supply of materials for production

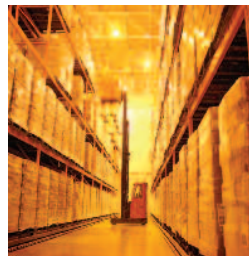

Operating to the highest codes of practice, we are certified to the rigorous quality and hygiene standards BRC, ISO 9001 and ISO 14001.

## Production Support

ACS&T's Production Support service will also provide additional benefits, including:

- Utilising valuable factory storage space for production
- Pushing the cost of capital in purchasing stock and storage costs back to your nominated suppliers
- Bar code scanning and RDTs to ensure accurate stocks and full tracking
- Meeting short lead-times to ensure continued factory production
- Unrestricted capacity for stocks to meet production peaks
