

QUALITY / ACCREDITATIONS

ACS&T Logistics is resolutely committed to delivering high quality customer service, whilst operating with integrity and a concern for the environment.

We are constantly striving for improvement, and work to internationally recognised standards, so that we can make a real and positive impact on our customers' business.

We are accredited to the following standards:

British Retail Consortium Global Standard – Storage & Distribution

We achieved the BRC Global Standard for Storage and Distribution across all of our sites and temperature regimes between September 2008 and January 2009. To achieve this, we made a comprehensive analysis of factors which could affect the safety and quality of our customers' products, identifying critical control points and eliminating potential hazards.

British Retail Consortium Global Standard - Food

We have held the BRC standard for Food at our Wolverhampton site since 2005. This accreditation requires us to work to increased hygiene and food safety standards. At the last accreditation, we achieved the highest possible "A" grade for identifying critical control points and eliminating potential hazards.

Quality / Accreditations

ACS&T

ISO9001: 2008

We have been accredited to ISO 9000 since 1993, for our quality management system and the procedures we have in place to control our operations, ensuring that everyone at ACS&T works to the same high standards.

ISO14001: 2004

We were first accredited to ISO 14001 in 2001 for our compliance with local environmental standards and our work towards energy saving and the reduction of carbon emissions across our working sites.

Investors in People

We were first awarded the IIP in 1997. This reflects our commitment to the development and training of our employees and our work to maximise individual potential to help achieve the aims and objectives of ACS&T.
